DETAILED ACTION

Oath/Declaration

The oath/declaration filed on 7/28/2003 is acceptable.

Specification

The specification has been checked to the extent necessary to determine the presence of all possible minor errors. However, the applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Objections

Claims 1 and 2 are objected to because of the following informalities:.

In claims 1 and 2, it is requested that Applicants spell out the acronym “ TMR ” and “XPC” so as to avoid any possible confusion as to the meaning of this term. Appropriate correction is required.

Claim Rejections

Claim Rejections - 35 USC § 112

Claims 1, 3 and 4 rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, “said semiconductor devices”, “said active semiconductor devices” lacks antecedent basis.

In claims 3 and 4, “the TMR element” and “said TMR structure ”are insufficient antecedent basis for this limitation in the claim, claim 1 provides the antecedent basic for this term.

The remaining claims are dependent from the above rejected claims and therefore also considered indefinite.

When responding to the office action, Applicants’ are advice to provide the examiner with the line numbers and page numbers in the application and/or references cited to assist the examiner to locate the appropriate paragraphs.

A shortened statutory period for response to this action is set to expire 3 (three) months and 0 (zero) day from the day of this letter. Failure to respond within the period for response will cause the application to become abandoned (see M.P.E.P 710.02(b)).
